Midwest Hydro Users Group (MHUG)

Re: Fall 2021 MHUG BOD Nomination – Rob Vyvyan Introduction Letter

Dear MHUG Members,

My name is Rob Vyvyan and I am a Lead Civil and Chief Dam Safety Engineer for Alliant Energy (AE). AE owns and operates the Prairie du Sac, WI and Kilbourn Wisconsin Dells, WI hydro dams and is part owner at the Castle Rock and Petenwell hydro dams. I have been with AE since 2014 and previous to that worked with Brennan for nearly five years on marine construction projects and five years at Stenstrom out of Rockford, IL working on underground utilities and commercial site work.

I joined MHUG in 2014 and have attended nearly all of the Spring and Fall meetings. I have presented in a few of the learning sessions over the years. I enjoy the tight nit group and the sharing of knowledge that I can apply in my work at AE. The resources through MHUG have helped me develop new projects and avoid project issues through experiences shared by others.

I look forward to serving as a board member to continue providing this great resource to the industry.

If you have any questions please contact Rob Vyvyan, Chief Dam Safety Engineer at 608.458.3677.

Sincerely,

Robert Vyvyan, PE
Chief Dam Safety Engineer
