

Chris Goodwin is a licensed engineer with over 30 years of experience in the consulting industry, focusing the last 15 years on the renewable energy sector. He has extensive expertise managing complex water resource projects across the Midwest; these projects range from major dam rehabilitation, floating bulkheads, dam safety inspections, floodplain studies, and compliance assistance for dam owners. He was the Water Resources Group Manager at Ayres Associates from 2008 through 2022. In 2023 Chris accepted a position as Vice President with Kleinschmidt Associates.

Chris holds a Bachelor of Science in Biology from the University of Wisconsin River Falls, and a Master's in Environmental and Public Health, from the University of Wisconsin Eau Claire. He is an active member of the United States Society on Dams (USSD), the Association of State Dam Safety Officials (ASDSO), the National Hydropower Association (NHA), and the Midwest Hydro User Group (MHUG). He is a member on the NHA Pump Storage Council, Regulatory affairs Council and Small Hydro Council. He serves on the MHUG Strategic Planning Committee. Since 2008 Chris has attended nearly every MHUG regional meetings as well as attending WaterPower Week and numerous other trade shows. Chris is also a Registered Professional Engineer in Wisconsin, Wyoming, and Maryland. In his personal life he serves on his local youth hockey board and is chairing committee to construct a new rink.
